Local Intelligence.

TUESDAY.

General O. B. Wilcox left yesterday for a brief visit to his daughter, who is attending school at Oakland, Cal.

Mrs. Baffum and Campbell are having a new porch erected in front of their store on Montezuma street.

Mrs. Ed P. Bowers is in Prescott visiting her husband and family. She is the guest of Mr. and Mrs. J. L. Fisher.

The fine German piano raffled for on Saturday evening was won by J. L. Fisher, the throw being 45. This instrument was formerly owned by Col. Weeks, Chief Quartermaster of Arizona.

A false alarm of fire at 8 o'clock last evening brought our citizens out with a rush. In almost a moment the streets were filled with people ready to put out the destroying flames, when it was announced "false alarm."

Marshal Dake, U. S. Census Enumerator for the District of Arizona, is allowed 25 cents a day. Thus far he has generally made good selections, and is doing a good job of looking into the fitness of the person to do the work required.

Mr. Joe DuPrez states that the Miner was mistaken in regard to the item which appeared yesterday in regard to the low price received by him at the recent city of Tucson. He was treated kindly by the people there and wishes it so understood.

Miss Hattie Skinkle is in town from Williams valley. Miss Hattie is an excellent type, a nice young lady, and her smiling countenance is always welcome at the Miner Office, where she once held a "case." In addition to being a good type, Miss Skinkle is an expert telegraph operator.

An entertainment will be given at an early day by the Ryland family. When the day comes we hope to see a rousing house, as the parties interested have waited long and patiently for the time to come when they could give a performance which would be satisfactory alike to the public and themselves.

J. H. Hughes, formerly state agent at this place and for many years connected with the stage agency at San Bernardino, has taken the same position at Phoenix in the interest of Gilmer, Salisbury & Co.'s line. Mr. Hughes is an energetic, competent gentleman for the position and will give satisfaction.

The commanding officer, Company A, Indian scouts, has been ordered to proceed to San Carlos, A. T., and discharge, on the 31st proximo, his company of Indian scouts, and turn over the discharged Indians to the Indian Agent at that point, and immediately thereafter enlist a new company of twenty-five Indians.

We hear that our citizens, (always moved for their generosity and kindness of heart), propose to tender Miss Pauline Markham a complimentary benefit previous to her departure, which is set down for an early day. Let the ball be put in motion. We all want to see Miss Markham before the foot lights once more.

Mr. Kingman, Locating Engineer of the Atlantic and Pacific Railroad, or the St. Louis and San Francisco 35th parallel route, will proceed on Wednesday for the Colorado river, pass the same onto California soil, a few miles, and survey for an outlet west from the river, after which he will cross back into Arizona and permanently locate the line east to the point on the Little Colorado, where the route is already located and the final stakes driven.

We see by the Tucson papers that Postal Agent McCusick is doing much good in the southern district in establishing new post-offices, increasing mail service on the various routes, etc. We are pleased to see him doing so much good, and earnestly hope he may extend his tour of work and observation to Apache County, where his presence is sorely needed. If there were any one spot more than another that is woefully and wilfully neglected as regards mail matters it is Apache County. St. Johns, the county seat, with a population bordering 800 souls, without a postoffice, speaks but for a "great and good Government." Let the remedy be applied.

Ding, dong, bell, a cow in the well, might have been heard from a score of throats, in the neighborhood of Granite and Goodwin streets, Sunday afternoon, when it became known that the famous old milker belonging to J. L. Hall, the tragic butcher, had gone prospecting to the bottom of an open well on the premises formerly occupied by George Ah Fat as a wash house. The services of Marshal of Granite and Goodwin streets, Sunday afternoon, when it became known that the famous old milker belonging to J. L. Hall, the tragic butcher, had gone prospecting to the bottom of an open well on the premises formerly occupied by George Ah Fat as a wash house. The services of Marshal of Granite and Goodwin streets, Sunday afternoon, when it became known that the famous old milker belonging to J. L. Hall, the tragic butcher, had gone prospecting to the bottom of an open well on the premises formerly occupied by George Ah Fat as a wash house.

The attention of our readers is called to the Havana Lottery advertisement, elsewhere in the Miner. Taylor & Co., bankers, New York City, are the agents.

C. W. Beach's team with goods for N. Ellis, put in an appearance this morning, discharging cargo and reloading with lumber at the mill of Geo. W. Curtis for Irvine & Co., Phoenix.

R. C. Brown was arrested yesterday for the third time, in as many days, on complaint of L. C. Hughes. The label charged is based upon his appearing in a mine, and Mr. Brown was released upon a bail bond of \$1,000, and will appear before the next grand jury—Tucson Record.

We are pained to chronicle the death of little George, infant son of Mr. and Mrs. J. A. Guild, which took place to-day at 12 o'clock from convulsions. The funeral will take place from the residence to-morrow, May 12th, 1889. Members of the I. O. O. F. and Knights of Pythias and the public generally are invited to attend.

We would call the attention of our readers to the advertisement of Miss S. L. Watson, who, by close attention to business, has placed herself in a position to furnish a article, from the lowest to the highest priced in her line. Elegant new styles of summer hats from San Francisco and New York have recently been added to her stock on hand and more are enroute. An examination of her goods will satisfy the most skeptical that a better bargain can be obtained than by sending away, and better satisfaction as to style, etc.

Start a cow herd in Prescott. It would pay some one.

J. L. Hall received several fine heaves from the San Francisco mountains to-day.

The Ryland Circus will give an entertainment on Saturday evening.

Potatoes in Prescott have pined out. Now is the time for farmers to bring them in.

W. H. Weber, formerly foreman in the Miner Office, writes from Franklin, Pa., and sends his photograph. Will like Arizona, and will probably find his way back to Prescott during the summer.

Mr. Riggs and others departed to-day for the Black Hills, north of town, for the purpose of locating a rich mine recently discovered. It is said to be a genuine bonanza that will cause a boom.

P. C. Wilder and his young bride left to-day for their home at Avila Rock. Mr. W. with a new wife, a new home, and elegant new furniture, comfortably fixed for keeping house. It beats batching all to pieces.

Considerable activity prevails around the green creek section in mining nations at present. Several good prospects have been located of late and much prospecting done by owners of claims. The district contains many good mining properties.

Two funerals in Prescott in one day is a thing uncommon since the subjugation of the Indians, however such was the case to-day. Mrs. Pemberton and the little child of Mr. Guild were laid away in their respective burials this p. m.

John H. Marjan is up from his ranch on the Upper Verde and reports considerable activity among the farmers in that section of the country. He tells us that the grass is looking backward this season, owing probably to the cold weather of April, accompanied by the prevailing high winds.

Allen Cullumber, an old resident and pioneer of Walnut Grove is in town to-day, looking quite feeble from a long and severe spell of sickness. He tells us that the farmers in the valley have plenty of water this season for irrigating purposes and in consequence the prospects for a rousing crop this fall are excellent.

Dan O'Leary has gone beyond the Colorado River, opposite Fort Mohave, for the purpose of locating a batch of mines recently discovered in that section. After having made these locations he intends joining the surveying party as a volunteer guide, and assist Mr. Kingman in locating the R. R. line in the vicinity of Fort Mohave.

Mr. Kingman, Locating Engineer of the A. & P. R. R., had his teams well shod, his wagons repaired and loaded with supplies to-day, ready to leave for the Colorado River to-morrow, where he will commence locating a permanent line for the road bed. He has two teams with him and a survey roll amounts to \$1,500 per month, considerable of which will be dropped with Arizona merchants, station keepers, etc.

Mejer Dake received this morning per mail, four letters (franked through) from the Census Department, each weighing 115 pounds. We presume the postmasters and mail contractors between Washington and Prescott sent up their benedictions in unmistakable terms and language for this huge little packages occupying a place in the U. S. m. s. We intend to send them our full supply of newspaper through this channel; it is cheap, and then we like to hear good people (postmasters) pray.

SAND STORM.—We have not heard from San River Valley, but from the amount of soil this has been blown over Prescott from that direction, apparently bound for San Francisco mountain, within the last 24 hours, we should judge the ranchers of that valley would soon be out with their deeds, searching for stray real estate along the line of the 35th parallel railroad, where much of it has been lodged, and where it will command a higher price in a short time, than if it had remained where the U. S. surveyor first field noted it.

C. L. Haines, Esq., Secretary of Gilmer, Salisbury & Co.'s stage line, who has his office in Salt Lake City, is visiting Arizona. He came to Prescott this noon with Supt. Stewart, and is looking about the town as well as he can with the clouds of dust that fill his eyes from which ever direction they may be turned, as the wind whistles round the corners and up and down the streets and alley. It is a bad time for strangers to get a good impression of Prescott when the great Colorado Desert is pouring the fog end of a sand storm over the Sierra Prietas.

GOOD APPOINTMENT.—Major Dake, Census Enumerator, has, upon the petition of a large number of our people, appointed Miss Hattie Skinkle Census Enumerator for the Williams valley district. Miss Skinkle is in every way competent, and as she has lived several years in that section is well acquainted with the people, where but laborers are to be performed. We believe of the thirty-eight enumerators for Arizona this is only the appointment given to a female. It will be a note in history, to be known, that Miss Skinkle was one of the enumerators in 1880, to take the census in the wilds of Arizona.

SUDDEN DEATH.—Mrs. Pemberton, a very estimable lady who resided about two miles west of Prescott, died suddenly yesterday under the following circumstances: She was enjoying her usual good health apparently and prepared dinner for her husband and others, as ordinarily was her rule, and a few moments before 12 o'clock summoned them to the meal. She took a bucket and repaired to the laundry a few yards distant for water but did not return. The men folk, after waiting a few minutes suspected something was wrong, when they went out and discovered her in a semi-conscious state, laying upon the ground. They conveyed her to the house, but she gradually grew worse, and in two hours was a corpse. Her ailment was congestion of the brain. She was said to be an industrious and excellent woman.

THURSDAY.

The Masons are to have a grand time on the 24th of next month.

Mr. Pell Craig is stopping in Prescott for a few days after a long sojourn at the Tiger.

C. Y. Shelton, from Walker District, Lynx Creek, is in town to-day having his dust run into bars, etc.

Mr. Liville is in Prescott from Phoenix a leading to matters in connection with the late Geo. F. Cat's estate.

Lumber from Prescott saw mills continues to go out to Phoenix and other points in considerable quantities.

General Wilcox is stopping at Maricopa for a few days directing movements against the Indians from that point by wire.

Several mammoth freight teams, put in an appearance this morning. They brought goods for nearly all our merchants.

The Stage Company of Gilmer, Salisbury & Co. have contracted for hay for sale, to be placed at nearly every station between Phoenix and Prescott.

The Tucson Citizen is reliably informed that the office of Thomas Cordis, Collector of Internal Revenue, will be removed from Prescott to Tucson by the 1st of June.

The Census Enumerator, in Arizona, will be located about the 1st of June. Now, ladies, brace up and own up. Don't let the figures violate the adage, you know.

Ryland's circus entertainment on Saturday evening. Remember that it is a benefit for Mrs. Ryland, and let it be complimentary in every particular.

The Sanford-Moeller land case still lingers in the Court of Messrs. Kelly and Louns, Land Office officials. The testimony is very voluminous and tedious to take down.

We note that family, who taking all their stores down in April, are called upon by old Prob. to endure three weeks of raw, windy weather. Better not discount too soon on warmer weather.

Jack Henkle, an old Hassayamper, and Lynx Creek, is in town to-day. Like Lord Nelson's soldier at the battle of the Nile, Jack has been "all the while" and declares this to be the coldest, back-winded and windiest spring that has ever occurred in Yavapai within the memory of white men.

Merideth Meador, Esq., an arguement of 1849, father of Frank and Clay Meador and Mrs. F. W. Blake, arrived here this morning direct from Golconda, Nev., where he has resided for a long time. Whether he remains here or not depends upon future developments after he has had time to take in the surroundings. Thus far as he has done himself, assiduously, to resting and recuperating from the fatigue of his laborious trip.

We publish to-day a very interesting letter from Mr. James Howey, of Prescott, now visiting his relatives and old home in England. The letter is full of good matter and will pay the reader to peruse it carefully.

Mr. Symes, the smelter, came in from the works on the Agua Fria to-day. He has been making a run on some twelve tons of copper ore from the Black Hills, which has yielded very satisfactorily. The product has not yet been weighed, but the bulk of copper is all that could be hoped for.

ARIZONA TROOPS DO THE WORK.

Eleven Good Indians.

We are indebted to Col. Martin, Adjutant General of the Department of Arizona, for the glorious information that Capt. Kramer made eleven good Indians from Victorio's flock a few days since near Ash creek, in Southeastern Arizona. A few more skirmishes of this kind with the troops of this department will cause the old buck to pull in his battle flag and sue for peace. It is quite probable, however, as the old man man is credited with having considerable sense, that he will discover that he is on forbidden and unlucky ground, and will be take himself to new fields where he will only have to cope with General Hatch and his colored brethren, for whom, Victorio has but little more regard or fear than a wolf has of a young lamb. Captain Kramer has proven himself to be a hero in Indian warfare and should receive the grateful thanks of the people everywhere for his good work.

We copy the telegram received from Col. Martin, which is official and of course reliable:

"MEXICO.—Reliable information establishes the fact that Captain Kramer killed eleven Indians in his fight of the 6th inst."

MARTIN, A. A. G."

To Day's News.

Letter List.

The following is a list of letters remaining in the Prescott Postoffice for the week ending May 12th.

Amber Mrs M	Burke F G
Barnett V A	Choute Miss H
Benolt T-2	Fisher C
Davis W H	Giles G H-2
Giles A	Hicks J B-2
Goodman J	Hillbrand G
Harvey W C-3	Irvine H P
Hempe H	Kelly J H
Johnston G	Lago Miss J
Lago Miss J	Morton J C
McDonald A	Rains A W
McLure W T	Robbins Wm
Stiles F	Stoll J A
Shepard G B	Togery M
Tanner Mr	Tuttle G
Thorn Dell	Thomas G W
Whitman W J	

Persons in calling for these letters will please say advertised.

T. W. OTIS, Postmaster.

The Board of Supervisors of Maricopa County refuse to pay any part of the expense of surveying the boundary lines between the counties of Yavapai and Maricopa, unless allowed the privilege of settling or at least of having a voice in what shall be selected to do the work. It strikes us that we have a Surveyor-General in this Territory, and if there is a question as to the boundary of the two counties he should be asked to send his deputies into the field and settle the question without expense to either of the counties. Just our ideas linked with those of the taxpayers.

The Tucson Daily Star comes to us enlarged and much improved mechanically, and otherwise, all of which denotes prosperity, etc. Success to you, Mr. Hughes, but we conjecture Southern Arizona has too many presses. Remember our prediction, not however imagining for a moment that it will interfere with the prosperity of the Star.

We are pleased to learn that Hon. W. H. Hardy is recovering from a very severe spell of sickness. His friends expect to see him up and doing in a few days. Capt. Hardy is an energetic, useful citizen, and can't be spared very long just now.

Lieutenant Geary and family, Captain D. H. Murdock, Surgeon Kamm and Captain Mackay, U. S. A., with 94 recruits for posts in Arizona, left Omaha on Saturday's overland train, to arrive here on Wednesday—S. F. Post, May 10th.

Wm. Zickendorf, of Tucson has gone on a business trip to New York. We judge his trip has something to do with the building of a railroad from the San Pedro to Tombstone.

WANTED.—TV exchange for brood mares stock cattle of good class. Enquire for particulars at this office. Prescott, May 14, 1889.

An Indian was run over a few days since at Maricopa by the cars, which amputated both legs. Another good Indian.

An interesting letter from Orthal arrived too late for publication in this issue of the Miner. It will appear in to-morrow's daily.

Bones & Spencer will receive every morning from Wickenburg, fresh strawberries. 4237.

**W. M. BUFFUM'S**

Handkerchiefs and Gloves, and many more.  
New Goods arriving every week from San Francisco and the Eastern Markets.  
Prescott, March 24, 1889.

**A Fine Thing for the Teeth:**  
Fragrant ZOZOPOINT is a composition of the purest and choicest ingredients of the Oriental vegetable kingdom. Every ingredient is well known to have a beneficial effect on the teeth and gums. Its embalmic or anise-like property and aromatic fragrance makes it a toilet luxury. ZOZOPOINT removes all disagreeable odors from the breath caused by catarrh, bad teeth, etc. It is entirely free from the injurious and acrid properties of tooth pastes and powders which destroy the enamel. One bottle will last six months.  
—ALSO—  
To all who are suffering from the sorrow and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. JOSEPH T. LEMAN, Station 10, New York City, Jan 10/89.

**A Card**  
To all who are suffering from the sorrow and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. JOSEPH T. LEMAN, Station 10, New York City, Jan 10/89.

**BETTER.**—Families furnished with nice fresh butter from my dairy at 50cts per lb. Orders filled with promptness.  
—J. D. COOK.

300 cases 150° fire test Security coal oil just received at L. Bashford & Co.

Save money by buying from L. Bashford & Co.
